

The NSW Government has promised to create "an iconic Great Koala National Park" on the Coffs Coast and hinterland. It has even allocated \$80 million to start the process!

This is FANTASTIC news,
but there's a catch and it's a big one...

The NSW Government is refusing to stop intensively logging critical koala habitat in the Great Koala National Park!

Logging in the GKNP May-2023

Urgent action is needed to STOP the carnage!

Please email

NSW Premier Chris Minns

www.nsw.gov.au/nsw-government/premier-of-nsw/contact-premier

ask him to **STOP LOGGING**

the Great Koala National Park IMMEDIATELY

Visit: www.koalapark.org.au for more information

TURN OVER for more info and actions to support the GKNP campaign

Did you know?

- Habitat loss is the key threat to koala survival.
- Forest Corp is logging in the proposed GKNP faster than ever before and appears to be targeting critical koala habitat.
- Forest Corp's 12 mth logging plan (from March '23) targets 30,297ha (14%) of native forest within the GKNP. This area includes 518 koala records.
- Forest Corp is a NSW Government owned company.
- Public native forest logging in NSW makes an annual \$10-20 million LOSS and is propped up by NSW taxpayers each year.
- The NSW public plantation sector is strong and profitable and can meet timber needs.
- The GKNP will create 9,800 regional jobs generating \$330m in wages and \$273m in capital and operating expenditure plus generate \$412m in tourism spending.
